

SAVE THE ENVIRONMENT

There are many environmental problems today such as climate change, global warming and pollution. We have to

Climate change is a global problem so we have to make people aware of the problem.

In my family, we do some things to help the environment.

Sometimes I leave my Xbox on, but my mom always tells me to turn it off.

Use low-energy bulbs.

If I use my bike every day, I won't pollute the air.

People must be aware of the problem of the climate change and the global warming.

Stop deforestation because there will be no forest.

We collect garbage selectively.

We also need the ocean to stay clean and because of this we need to stop dumping waste. If we want

the ~~ocean~~ solar energy because it doesn't pollute the environment.

My family and I always recycle newspaper, cartons, bottles, cans.

We have to plant trees to reduce greenhouse gases.
If we use less water, electricity, we can save a lot of money.
The 3 R's are very important: reduce, reuse, recycle.
We must reduce the use of fossil fuels, cars, water, electricity, and gas.

We always use textil bags for shopping.

Don't cut trees in the rainforests, to preserve the animals natural habitat.

After my phone is charged, I unplug the charger.

We should help endangered species to save animals.

The most important thing in my life is how to protect the environment. My family try to save the ~~per~~ Earth.

is also important to collect what we can selectively. Garbage should not be thrown away either because if it gets into the sea the animals can eat it. The melting of
